Mechanical Massage

Industry's largest

In-depth KIWAMI MECHA

Implementing the depth and delicacy of human-hand like massage experience with the double sensors - Industry's first and maximum projection.®

※Our company reference. Currently Oct 2015.

Industry's first

Double sensing

It loads 2 sensing systems such as "S shaped line detection system" that detects the spinal line and "Shoulder position detection system" that detects the shoulder position.
Detect the body shape using 3D and neatly adjust knead one by one.

※Our company reference. Currently Oct 2015.

9-Stage strength adjustment

Desired knead strength can be selected by deciding and adjusting finely the extended projection part of MECHA.

17 types 47 varieties of knead technique

"Neck""Shoulder""Back""Waist"and "Buttocks". Load the specialized technique that matches with the position.

Basic technique	
Knead up	
Knead down	Tapping
Wavelet	Rolling

Loop mode

Massages the wide range in addition to the up-down movement in the basic technique.

3D Mode

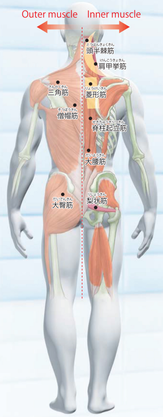

It massages even more deeply, in addition to the operation of the basic technique.

Stretch Mode

It relieves while stretching in addition to the up-down movement in the basic technique.

Massage focusing 5 locations 7min course

7 min course that relieves the stiffness and tiredness that is peculiar to the modern people caused by lack of physical activity or work habit.

Neck focus massage

for the stiffness in the neck or the tension in neck muscle

Massages with the finger pressure/enlarged activity from the neck muscle to the mouth of shoulder.

Shoulder focus massage

Shoulder focus in concentrating the shoulder mouth

Massage hardly with rubbing/ kneading/tapping activity of the circumference of the mouth of the shoulder.

Shoulder blade focus massage

for the dullness and the tension of the shoulder blade

Massage with the stretch/relieve activity from the shoulder blade bone to the pivot muscle of the body.

Waist focused massage

for the tiredness of waist

Massage with the activity that rubs/ taps from top of the spine to the lower part of waist mainly on the spinal column erect position.

Sciatica massage

for the tiredness of buttocks that is collected easily

Massage with the operation that rubs/taps by pushing up the buttocks with the air bag in the sitting side.

Advanced function relieves tension by implementing the new demensional knead sensation.

MECHA massage is the heart of the massage chair. It relies on a new sensor which optimizes the rubbing by further implementing the new dimensional massage. It accomplishes this by adopting the new epoch-making technology while utilizing the pre-existing support functions such as the positioning system, heater and stretch.

Air Massage

Loads the "Hand knead mode" newly to revive the vibrancy and reassurance of the technique.

Industry's first

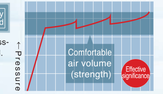

Triple mode Air system

※Our company reference. Currently Oct 2015.

Load the "Flow adjustment function" to control the air flow and its speed.
3 types of kneading experience can be selected.

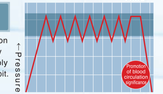

Hand knead mode Newly added

Main comfortable pressure and varied speed.

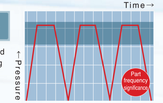

Pulse mode

Support the promotion of blood circulation by repeating the air supply and exhausting bit by bit.

Normal mode

Focus the position and massage by repeating the air supply and exhausting largely.

Arm massage Strengt adjustment 5stages®
Insert firmly from the elbow to fingertip and massage.

Waist and pelvic massage Strength adjustment 5 stages®
Relax wide range of muscle from the sides of the pelvis to the back of knee.

Shoulder massage
Strength adjustment in 5 stages®
Massages from upper arm to the shoulder by holding it tightly from outside.

Leg/feet massage
Strength adjustment 5 stages
Relaxes from the calf muscle to the foot by repeatedly pressing and releasing.

※Exercise the strength adjustment of "Shoulder massage","Arm massage"and"Waist & Pelvic massage"

New calf muscle massage

Fixes the leg part with the left and right air bags and stimulates the zusanri lines. Simultaneously, the air bag at the back will add-up the pressure bit by bit at the back of the calf muscle.

Heater

Double heater

2 heater for shoulder blade which tends to get more stiffness and sole of the feet which tends to be chilled.

Shoulder blade heater

The built-in heater in the back part mainly concentrates on the shoulder blade circumference and massages while heating gradually.

Heater at the backside of feet

Warm sole of the feet which get chilled easily.

※Only heater can also be used. Configured temperature: Approx. 109 F (The setting temperature differs with the body sensing temperature)

Stretch

Stretch Massage

New custom that relieves muscle.
New stretch massage.

Whole-body stretch 3types 6min course

"Stretch course" "Extreme stretch course" "Air course"It loads 3 types of stretch that will stretch each nook and corner of the whole body.

Partial Stretch 3types 7min course

Neck muscle stretch

Fix the neck with MECHA and stretch the neck muscle by stretching the whole body with Ottoman.

Back stretch

After stretching the whole body with Ottoman,turn upside down the shoulder muscle that stretches the shoulder muscle.

Waist stretch

Stretch the leg forward then stretch by pulling up waist simultaneously.

Position

HOLD Position

Auto-set the ideal posture that can accept the massage effectively.

If the power is switched on, the back rest and leg part reclines automatically

Natural fit Slide mechanism

Adopts the independent power spring mechanism. Fit smoothly by stretching by combining with the leg.

Usability & Course

DIRECT LED remote control

Variegated course that can be easily operated with a single button.
